

Project 1

Evan Ohme, Katana Bierman, Brooke Adkins

[Word File](#)

This is a link to the word file used as a dictionary for Wordle.

Description

After running the program, `main.rb` prompts the user for the game they want to play. Upon answering, it drops them into the corresponding `*.rb` file for that game.

Running

1. Extract the zip file and `cd` into the new folder.

```
unzip project.zip && cd project/
```

2. With `ruby` installed run the command:

```
ruby main.rb
```

Testing

See the `tests/` for input files and expected outputs.
